

**WEST ISLIP BOARD OF EDUCATION
BUILDINGS & GROUNDS COMMITTEE REPORT**

DATE OF MEETING: Tuesday, April 2, 2019
District Office

COMMITTEE MEMBERS PRESENT: S. Brady, P. Michaluk, K. O'Connor

BOARD MEMBERS IN ATTENDANCE: R. Antoniello, S. Gellar, R. Maginniss

ADMINISTRATORS PRESENT: B. Burns, J. Bosse

OTHERS PRESENT: Gary Robertson (BBS); Tony Campanella (SCC)

The meeting was called to order at 7:45 p.m.

1. Both BBS and SCC gave the committee an update on the ongoing bond project. It was reported the phase 3 bond work is moving towards closeout with just some punch list items remaining. As reported last month there is a significant amount of construction scheduled for this summer. This includes multiple building's roof replacement, construction of security vestibules on 6 building, multiple bathroom renovations, new Technology and Engineering Lab at the HS, renovation of the HS Music Suite and installation of a security booth on Lions Path.
2. As has been previously reported the HS varsity baseball turf field installation has been completed. The committee discussed the use of this field by outside groups who properly secure a permit through the district. Due to wear and tear from use, specifically on the new turf pitcher's mound, the committee has decided this field will only be made available for use of games, not practice.
3. Due to the heavy construction work scheduled for this summer on district property, it is anticipated a temporary bathroom trailer may be required near the turf facility during the renovation of Paul J. Bellevue's exterior access bathrooms.
4. A new visitor access system has been installed at the District Office. This allows the exterior door to remain locked at all times, as is the protocol with doors throughout the district. The receptionist has a camera view, intercom and buzzer release to maintain security.

Meeting was adjourned at 8:30 p.m.
