## West Islip Public Schools

Bernadette M. Burns  
*Superintendent of Schools*

James Bosse  
*Director of Buildings and Grounds*

### **Buildings & Grounds Committee Meeting**

Date: August 10, 2022  
Time: Following the Finance Committee meeting  
Location: Beach Street Middle School

#### **Discussion Items**

1. Construction project update (BBS and SCC)
2. Window stops
3. Masera

#### **Informational Items**

1. The PV solar roof projects are almost complete; we are still awaiting backordered components for the systems at the high school and for PSEG to provide final system approval for the middle schools. PSEG delayed the district's approval inspections because they were in "emergency condition mode" due to recent irregular hot and dry temperatures.
2. The B&G Department is preparing facilities for returning students and staff.
3. The Barberry turf field at the high school was successfully replaced by Landtek at no cost the district.
4. The approximate cost to install mini-split air-conditioning units in all classrooms districtwide is approximately \$8 million. The estimated cost of increases to future electric utility bills still needs to be calculated.
