PROGRAM DESCRIPTION

West Islip Enrichment Program:
The West Islip Enrichment Program will offer enrichment courses to the children of West Islip residents who have already completed Kindergarten, through 8th grade, including students who attend parochial or private school. Children will be grouped by appropriate age based on applicant enrollment.
This program is completely self-sustaining. It is funded by course fees, so there is no cost to local taxpayers.

Program Dates:
Saturday, Oct. 14, 21, 28
November 4, 18

Registration:
The included registration form should be returned by mail, no later than Wednesday, Oct 11th, 2017. Late registration will incur an additional fee of \$10.00.
All Classes will be held unless otherwise notified.

Transportation:
Parents must provide transportation to and from the classes. All courses will be held at Beach Street Middle School. **Drop off and Pick up will be around back through the breezeway by the rotunda.**

Fee:
The fee for each class is listed after each course description. A minimum of 8-10 students is required for each course to operate. If enrollment is not sufficient, a refund of monies will be made. Once a course begins there will be no refund given for any missed sessions.

COURSE OFFERINGS

Session I: 9:15-10:30 AM
Session II: 10:30-11:45 PM

Super Delta Dart: E. Ermanovics

Come build and fly your own SUPER DELTA DART. This attractive rubber band powered airplane with good flying capabilities, features a balsa wood frame and paper covered wings that span 21 inches. Building the model is easy and straight forward. Using simple to handle tools such as a hobby knife, scissors, straight pins and white glue boys and girls will have no trouble assembling all parts of the airplane from an assortment of premeasured and precut color coded balsa wood strips. The addition of a propeller and rubber band motor completes the construction process making the SUPER DELTA DART a truly fun to fly model airplane.
Prior model building experience is not required.

Session I Grades 4 & up, Fee \$73.00**
** This fee includes an additional materials fee of \$8.00 per student.

Dragster Design and Construction: E. Ermanovics

Students will design, build & race their own CO2 powered dragsters using hand & power tools. Students will race their finished dragsters against each other following competition rules.
Session II Grades 4 & up Fee \$73.00**
** This fee includes an additional materials fee of \$8.00 per student.

Babysitting: L. Clifford

For the beginner babysitter, a sitter needs to know how to feed and bathe a baby and toddler, how to handle a difficult child, how to entertain an infant and child, know CPR, Heimlich and first aid procedures, and learn how to handle emergencies. Also covered will be getting jobs, will discuss pay and more. Students will receive a certificate, charts and booklets.
Session I Grades 5 & up Fee \$65.00

Hand Sewing: L. Clifford

This class is for beginners as well as for students who know how to sew. Students will sew a holiday pillow and a cell phone/iPod case. They will learn several sewing stitches and learn how to sew on buttons. All supplies will be provided.
Session II Grades 2 & up Fee \$65.00

Introduction to Theater: W. Oakes

Have you noticed that your child has a flair for all things dramatic? Why not give your child an opportunity to enhance those skills and develop a lifelong love for the theater? This class will focus on honing critical thinking and building improvisation and creativity. Students will observe, describe and apply creative dramatics (improvisation, mimicry, pantomime, role playing and story-telling) in a variety of situations.

Session I Grades 4 & up Fee \$65
Session II Grades K-3 Fee \$65

Fun Fall Cooking : T. Lombardi

In each session, students will learn to cook fun entrees or snacks. Students will make kid friendly recipes. Recipes include: mini deep dish pizza, silly monster apple bites & spider snack, jack o lantern peppers, beef taquitos, and pumpkin whoopee pies.

Session I Grades K-3 Fee \$73.00**

Session II Grades 4 & up Fee \$73.00**

****This fee includes an additional materials fee of \$8.00 per student.**

Legos: J. DeMaio

Flex those creative building muscles with LEGOS! Participants will enjoy building and designing challenges. Participants will exercise their creativity, problem solving and team working skills during this program. Participants will be encouraged to use their imagination to come up with a solution and then build upon it. LEGO fans are invited to come build, create and most importantly have fun! Bring your LEGOS and let the fun begin.

Session I Grades 4 & up Fee \$65.00

Board Games and More: J. DeMaio

Games, games, and more games! There are a ton of games out there and if you're like me you have a closet filled with them and you rarely play them. Well, that ends now! At *Board Games and More*, we will play board games with the intent of mastering them, so we become unbeatable! Each week we'll focus on a specific game and then explore some others. So, bring your board games and let the unending fun begin!

Session II Grades 2-6 Fee \$65.00

Coding is Cool Part 1: C. Maniscalco

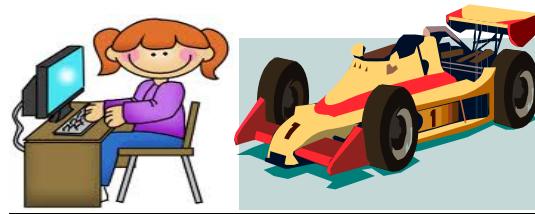

Coding is the way we tell computers to do all the helpful things they do for us. Computers then follow lists of instructions a coder or programmer has written. Students will learn to code by starting with a short simple program. They will then advance to bigger projects at their own pace. Students will gain technical and creative skills as they begin to code, program and animate a custom video game.

Session I Grades: 3 & up Fee \$65

Coding is Cool Part 2: C. Maniscalco

Love Coding? Continue to advance in coding using Tynker, Code.org and Scratch among others! Students will have access to step-by-step tutorials that walk them through programming projects as well as encourage further exploration. With assistance from Mrs. Maniscalco, students will advance at their own pace. Coding Part 1 is not a requirement to take this course.

Session II Grades: 3 & up Fee \$65
