

Graphic Novels for Incoming 9th Grade Students

<p><i>American Born Chinese</i> by Gene Luen Yang</p>	<p>Jin Wang starts at a new school where he's the only Chinese-American student. When a boy from Taiwan joins his class, Jin doesn't want to be associated with an FOB like him. Jin just wants to be an all-American boy, because he's in love with an all-American girl. Danny is an all-American boy: great at basketball, popular with the girls. But his obnoxious Chinese cousin Chin-Kee's annual visit is such a disaster that it ruins Danny's reputation at school, leaving him with no choice but to transfer somewhere he can start all over again. The Monkey King has lived for thousands of years and mastered the arts of kung fu and the heavenly disciplines. He's ready to join the ranks of the immortal gods in heaven. But there's no place in heaven for a monkey. Each of these characters cannot help himself alone, but how can they possibly help each other? They're going to have to find a way--if they want fix the disasters their lives have become.</p> <p><i>American Born Chinese</i> is a 2006 National Book Award Finalist for Young People's Literature, the winner of the 2007 Eisner Award for Best Graphic Album: New, an Eisner Award nominee for Best Coloring and a 2007 Bank Street - Best Children's Book of the Year.</p>
<p><i>Can't we talk about something more Pleasant?</i> by Roz Chast</p>	<p>In her first memoir, Roz Chast brings her signature wit to the topic of aging parents. Spanning the last several years of their lives and told through four-color cartoons, family photos, and documents, and a narrative as rife with laughs as it is with tears, Chast's memoir is both comfort and comic relief for anyone experiencing the life-altering loss of elderly parents.</p> <p>When it came to her elderly mother and father, Roz held to the practices of denial, avoidance, and distraction. But when Elizabeth Chast climbed a ladder to locate an old souvenir from the "crazy closet"--with predictable results--the tools that had served Roz well through her parents' seventies, eighties, and into their early nineties could no longer be deployed.</p> <p>While the particulars are Chast-ian in their idiosyncrasies--an anxious father who had relied heavily on his wife for stability as he slipped into dementia and a former assistant principal mother whose overbearing personality had sidelined Roz for decades--the themes are universal: adult children accepting a parental role; aging and unstable parents leaving a family home for an institution; dealing with uncomfortable physical intimacies; managing logistics; and hiring strangers to provide the most personal care.</p> <p>An amazing portrait of two lives at their end and an only child coping as best she can, <i>Can't We Talk about Something More Pleasant</i> will show the full range of Roz Chast's talent as cartoonist and storyteller. 2014 National Book Critics Circle Award Winner for Autobiography</p>

Graphic Novels for Incoming 9th Grade Students

<p><i>Dare to Disappoint: Growing Up in Turkey</i> by Ozge Samanci</p>	<p>Growing up on the Aegean Coast, Ozge loved the sea and imagined a life of adventure while her parents and society demanded predictability. Her dad expected Ozge, like her sister, to become an engineer. She tried to hear her own voice over his and the religious and militaristic tensions of Turkey and the conflicts between secularism and fundamentalism. Could she be a scuba diver like Jacques Cousteau? A stage actress? Would it be possible to please everyone including herself? In her unpredictable and funny graphic memoir, Ozge recounts her story using inventive collages, weaving together images of the sea, politics, science, and friendship.</p>
<p><i>Everything is Teeth</i> by Evie Wyld</p>	<p>When she was a little girl, passing her summers in the heat of coastal Australia, Evie Wyld was captivated by sharks—by their innate ruthlessness, stealth, and immeasurable power—and they have never released their hold on her imagination. From the award-winning author of <i>All the Birds, Singing</i>, here is a deeply moving graphic memoir about family, love, loss, and the irresistible forces that, like sharks, course through life unseen, ready to emerge at any moment.</p>
<p><i>Goldfish: A Crime Graphic Novel</i> by Brian Michael Bendis</p>	<p>The story of an enigmatic grifter with a heart of gold who returns to his old haunts to find his old flame practically running the city's underbelly, and his oldest friend and ex-partner in crime a police detective. But goldfish has come back for one reason, and one reason only: his son. This completely redesigned, reformatted and reworked hardcover is perfect for both new readers and old!</p>
<p><i>Here</i> by Richard McGuire</p>	<p>McGuire's story is set in a single corner of a single room, and yet it's filled with drama. Instead of moving through space, he moves us through time, using panels superimposed over different areas, depicting the life of the room and its inhabitants at different times in its history. Each two-page spread includes several panels scattered across the page, all from different time periods; taken together they form patterns and, to some extent, a story. The key with a formal experiment like this is to bring in enough characters and narrative that it feels like a story, and McGuire does manages it, even as he departs quite a bit from the traditional form.</p>
<p><i>Hyperbole and a Half: Unfortunate Situations, Flawed Coping Mechanisms, Mayhem, and Other Things That Happened</i> by Allie Brosh</p>	<p>Who among us has not, in moments that sometimes bleed through years, even decades, felt weird, desperate, and absurd--wishing we could turn all the lamest, most shameful episodes in our lives into hilarious illustrated anecdotes? If you're one of the millions hanging on Allie Brosh's every blog post, you already know you'll love <i>Hyperbole and a Half</i> in book form, especially since half its hyperboles are new. If you're suspicious of books because you live in a world of the INTERNET FOREVER, this is where you make an exception. If you just stumbled across Brosh and can't yet grasp the allure of a Web comic illustrated by rudimentary MS Paint figures, believe the hype. Brosh has a genius for allowing us to channel her weird childhood and the fits and starts of her adulthood through the manic eyes, gaping</p>

	<p>mouths, and stick-like arms in the panels that masterfully advance her stories, and she delivers her relentless commentary with deadpan hilarity. Neurosis has rarely been so relatable and entertaining. --<i>Mari Malcolm</i></p>
<p><i>Jimmy Corrigan: The Smartest Kid on Earth</i> by Francois Voltaire</p>	<p>Alan Kennedy says:</p> <p>Quite simply, this book is a masterpiece — not just in the graphic novel genre, but, in my opinion, the "book" genre. Extraordinarily detailed color drawings chronicle (non-chronologically) the Corrigan family living in the American Midwest from the 1880's to the 1980's. Some of the drawings are heartbreaking — how can a picture be both detailed and stark? Ware manages that. You will find yourself gazing for a long time at little pictures, marveling at what Ware is able to convey within the limitations of the graphic novel format. His depiction of family relationships is cringe-worthy and realistic, and he is especially good at conveying the passage of time.</p>
<p><i>Marble Season</i> by Gilbert Hernandez</p>	<p><i>Marble Season</i> is the semiautobiographical novel by the acclaimed cartoonist Gilbert Hernandez... It tells the untold stories from the early years of these American comics legends, but also portrays the reality of life in a large family in suburban 1960s California. Pop-culture references—TV shows, comic books, and music—saturate this evocative story of a young family navigating cultural and neighborhood norms set against the golden age of the American dream and the silver age of comics.</p> <p>Middle child Huey stages Captain America plays and treasures his older brother's comic book collection almost as much as his approval. <i>Marble Season</i> subtly and deftly details how the innocent, joyfully creative play that children engage in (shooting marbles, backyard performances, and organizing treasure hunts) changes as they grow older and encounter name-calling naysayers, abusive bullies, and the value judgments of other kids. An all-ages story, <i>Marble Season</i> masterfully explores the redemptive and timeless power of storytelling and role play in childhood, making it a coming-of-age story that is as resonant with the children of today as with the children of the sixties.</p>
<p><i>Maus I: A Survivor's Tale: My Father Bleeds History</i> by Art Spiegelman</p>	<p>Told with chilling realism in an unusual comic-book format, this is more than a tale of surviving the Holocaust. Spiegelman relates the effect of those events on the survivors' later years and upon the lives of the following generation. Each scene opens at the elder Spiegelman's home in Rego Park, N.Y. Art, who was born after the war, is visiting his father, Vladek, to record his experiences in Nazi-occupied Poland. The Nazis, portrayed as cats, gradually introduce increasingly repressive measures, until the Jews, drawn as mice, are systematically hunted and</p>

Graphic Novels for Incoming 9th Grade Students

	<p>herded toward the Final Solution. Vladek saves himself and his wife by a combination of luck and wits, all the time enduring the torment of hunted outcast. The other theme of this book is Art's troubled adjustment to life as he, too, bears the burden of his parents' experiences. This is a complex book. It relates events which young adults, as the future architects of society, must confront, and their interest is sure to be caught by the skillful graphics and suspenseful unfolding of the story. Rita G. Keeler, St. John's School , Houston Copyright 1987 Reed Business Information, Inc.</p>
<p><i>Mind MGMT V.1</i> by Matt Kindt</p>	<p>Reporting on a commercial flight where everyone aboard lost their memories, a young journalist stumbles onto a much bigger story, the top secret Mind Management program. Her ensuing journey involves weaponized psychics, hypnotic advertising, talking dolphins, and seemingly immortal pursuers, as she attempts to find the flight's missing passenger, the man who was MIND MGMT's greatest success—and its most devastating failure. But in a world where people can rewrite reality itself, can she trust anything she sees?</p>
<p><i>Persepolis: The Story of a Childhood</i> by Marjane Satrapi</p>	<p>Wise, funny, and heartbreaking, <i>Persepolis</i> is Marjane Satrapi's memoir of growing up in Iran during the Islamic Revolution. In powerful black-and-white comic strip images, Satrapi tells the story of her life in Tehran from ages six to fourteen, years that saw the overthrow of the Shah's regime, the triumph of the Islamic Revolution, and the devastating effects of war with Iraq. The intelligent and outspoken only child of committed Marxists and the great-granddaughter of one of Iran's last emperors, Marjane bears witness to a childhood uniquely entwined with the history of her country.</p> <p><i>Persepolis</i> paints an unforgettable portrait of daily life in Iran and of the bewildering contradictions between home life and public life. Marjane's child's-eye view of dethroned emperors, state-sanctioned whippings, and heroes of the revolution allows us to learn as she does the history of this fascinating country and of her own extraordinary family. Intensely personal, profoundly political, and wholly original, <i>Persepolis</i> is at once a story of growing up and a reminder of the human cost of war and political repression. It shows how we carry on, with laughter and tears, in the face of absurdity. And, finally, it introduces us to an irresistible little girl with whom we cannot help but fall in love.</p>
<p><i>The Gigantic Beard That Was Evil</i> by Stephen Collins</p>	<p>Like <i>Snakes on a Plane</i>, the title says it all in this book about a giant beard that ends up threatening the social order. It's set on the tidy little island of Here, where life is calm and nobody has any facial hair—until one day a man named Dave unexpectedly sprouts a truly righteous beard. It's huge, and tough, and it grows fast, to the point it threatens to engulf Dave, filling a room and shattering the windows of his house. In</p>

Graphic Novels for Incoming 9th Grade Students

	<p>the grand tradition of ridiculous stories of uncontrolled growth, the beard gets bigger and bigger and the townspeople resort to desperate measures, including surrounding it with scaffolding so the local hairdressers can try to trim it back—but to no avail. Meanwhile, the other residents of Here are starting to get rough around the edges, and soon there is an island epidemic of untidiness. Collins has a lot of fun with the allegory, and his artwork has a beautiful simplicity that carries the story well.</p>
<p><i>The Sculptor</i> by Scott McCloud</p>	<p>David Smith is giving his life for his art--literally. Thanks to a deal with Death, the young sculptor gets his childhood wish: to sculpt anything he can imagine with his bare hands. But now that he only has 200 days to live, deciding <i>what</i> to create is harder than he thought, and discovering the love of his life at the 11th hour isn't making it any easier!</p> <p>This is a story of desire taken to the edge of reason and beyond; of the frantic, clumsy dance steps of young love; and a gorgeous, street-level portrait of the world's greatest city. It's about the small, warm, human moments of everyday life...and the great surging forces that lie just under the surface. Scott McCloud wrote the book on how comics work; now he vaults into great fiction with a breathtaking, funny, and unforgettable new work.</p>
<p><i>Watchmen</i> by Alan Moore More</p>	<p>Considered the greatest graphic novel in the history of the medium, the Hugo Award-winning story chronicles the fall from grace of a group of super-heroes plagued by all-too-human failings. Along the way, the concept of the super-hero is dissected as the heroes are stalked by an unknown assassin.</p>
<p><i>Will Eisner's New York: Life in the Big City: New York, The Building, City People Notebook, Invisible People</i> By Will Eisner</p>	<p>"An American storyteller, like Ray Bradbury, like O. Henry."—Neil Gaiman</p> <p>With an unparalleled eye for stories and expressive illustration, Will Eisner, the master and pioneer of American comics art, presents graphic fiction's greatest celebration of the Big Apple. No illustrator evoked the melancholy duskiess of New York City as expressively as Eisner, who knew the city from the bottom up. This new hardcover presents a quartet of graphic works (New York, The Building, City People Notebook, and Invisible People) and features what Neil Gaiman describes as "tales as brutal, as uncaring as the city itself." From ancient buildings "barnacled with laughter and stained with tears" to the subways, "humorless iron reptiles, clacking stupidly on a webbing of graceful steel rails," Will Eisner's New York includes cameo appearances by the author himself; several new illustrations sketched by Eisner, posthumously inked by Peter Poplaski; and three previously unpublished "out-takes"—a treasure for any Eisner fan, and sure to become a collectible.</p> <p>Introduction by Neil Gaiman.</p>

Graphic Novels for Incoming 9th Grade Students

<p><i>Zoo: The Graphic Novel</i> by James Patterson</p>	<p>he latest graphic novel by renowned author James Patterson leaps off the page and goes straight for the jugular! Animals the world over are setting their sights on fresh prey - man. Only biologist Jackson Oz has recognized the patterns in an escalating chain of violent attacks by animals against mankind, and these incidents are just the prelude to something far, far more terrifying. Now Oz is in a race against nature to try to warn humanity about the coming catastrophe, but is it already too late?</p>
